

CLEANING & MAINTENANCE FOR THE OIL & GAS INDUSTRY

OILFIELD SERVICES WITH A FOCUS ON YOU, OUR VALUED CUSTOMER.

RADIATOR CLEANING

At Emory, we provide onsite professional dry ice blasting that thoroughly and efficiently cleans frac pump radiators within a few hours. That means your operators get back to work, keeping you productive and profitable. Benefits include:

- **Save money** over other cleaning methods that can cost over \$1000 more per radiator.
- **Extend the useful life of your radiators** by regularly cleaning your pump truck radiators with a simpler, more effective process.
- **Lower your radiator replacement costs** by ensuring your pump trucks run longer and more efficiently.
- **Keep your pump engines from overheating** with clean radiators that keep them cool all day long.
- **Minimize your maintenance downtime** by having your radiators dry ice blasted as they rotate through the yard for routine maintenance.

PREVENTATIVE MAINTENANCE

Emory's mobile maintenance services are specifically designed to extend the life of your fleet. We customize a preventative maintenance program to meet the operational and budget needs of our valued customers.

We service numerous types of vehicles and equipment, including tractor trucks, frac pumps, and off-road equipment. Our PM services include the following:

- **Engine Oil & Filter Services**
- **Fuel / Air Filter Services**
- **Transmission Service**
- **Hydraulic Systems Service**
- **Power End System Services**
- **Custom Inspections As Requested**

MECHANICAL SERVICES

At Emory, our team of experienced mechanics will diagnose and repair your frac pumps, trucks and off-road equipment. Highlights include:

- **Save on fixed labor costs** by outsourcing your mechanical repairs to our experienced service crew, gaining a trusted staffing partner through market cycles.
- **Inspection and diagnosis** of complex mechanical issues quickly to reduce downtime and implement timely and effective repairs using diagnostic software.
- **Minor or major repairs and testing** of engines, brakes, pumps, clutch plates, radiators, transmissions and all other components of your vehicles, frac equipment and construction machinery.
- **Welding** repairs of engine mounts, hand rails, machine guards, pipe racks and other structures.
